**To Provide Human Beingswith Simpler ,
Stable And Environmentallyfriendly
Printing Equipment**

为人类提供更简单、稳定、环保的印刷设备!

LEADING THE ERA STRIVING FOR FIRST PLACE

领航时代 迈向第一

World-Class Flexographic Printing Technology Solution Provider

温州立胜印刷包装机械有限公司是一家专业生产层叠式、卫星式、全伺服套筒等柔版印刷机设备生产商，设备适用于纸张、薄膜、无纺布、阀口编织袋等包装材料。公司始终坚持市场导向，引领科技创新，推动高品质产品发展。

wenzhou lisheng printing and packaging machinery co., ltd. is a professional manufacturer of flexo printing machines such as stack type, citype, and full servo sleeve, which are suitable for packaging materials such as paper, film, non-woven, and valve woven bags. always adhere to market orientation, lead technological innovation, and promote the

development of high-quality products. we have invested heavily in carefully building maza k and gantry machining centers. every component is pursued for ultimate precision to ensure the excellent quality of the printing press!

2007

Develop and mass-produce a stack type flexographic printing press.

研发层叠式柔版印刷机，进行批量化生产

2009

Establish a foreign trade sales team and enter the international market.

建立外贸销售团队，踏入国际市场

2012

Investing heavily in building modern factory buildings and introducing an international production management system

投入巨资建设现代化厂房，引入国际化管理体系

2015

Independently developed 150m/min CI flexo printing press

自主研发 150 米卫星式柔版印刷机

2017

Independently developed 300m/min CI flexo printing press

自主创新 300 米卫星式柔版印刷机

2020

Investing heavily in building a modern smart factory

斥巨资打造现代化智能工厂。

2021

The introduction of top-of-the-line Mazak and gantry machining centers from Japan will help elevate the quality of printing presses to a new level.

引进日本马扎克和龙门顶级加工中心，助力印刷机品质更上一台阶

2022

Pioneering a new field of fully servo gearless flexo printing presses

开创全伺服柔版印刷机新领域

不断创新

HISTORY

2024

The first sleeve type gear driven CI flexo printing presses has become an industry benchmark.

首发套筒式齿轮传动卫星机，成为行业标杆

2025

Introducing intelligent office and production systems

引入智能化办公和生产体系

Over 20 Years Of Sedimentation And Accumulation

8 Colors Full Servo Gearless Flexo Printing Machine

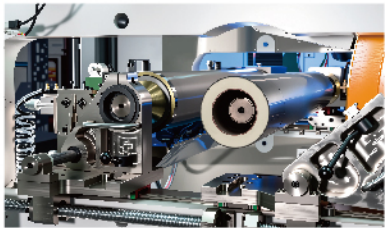

8色全伺服柔版印刷机

Technical Parameter		
Suitable Material	印刷材料	(薄膜) pe,pet,bopp,pvc (无纺布) non woven
Max Width Of Material	最大材料宽度	1200mm can be customized
Max Printing Width	最大印刷宽度	1160mm
Printing Color	印刷颜色	6 colors
Max Printing Speed	最大印刷速度	500m/min
Machine Weight	整机重量	30000kg
Machine Dimension	外形尺寸	14*4.5*4.6m (L*W*H)
Machine Power	电 压	380V,3PH,50HZ

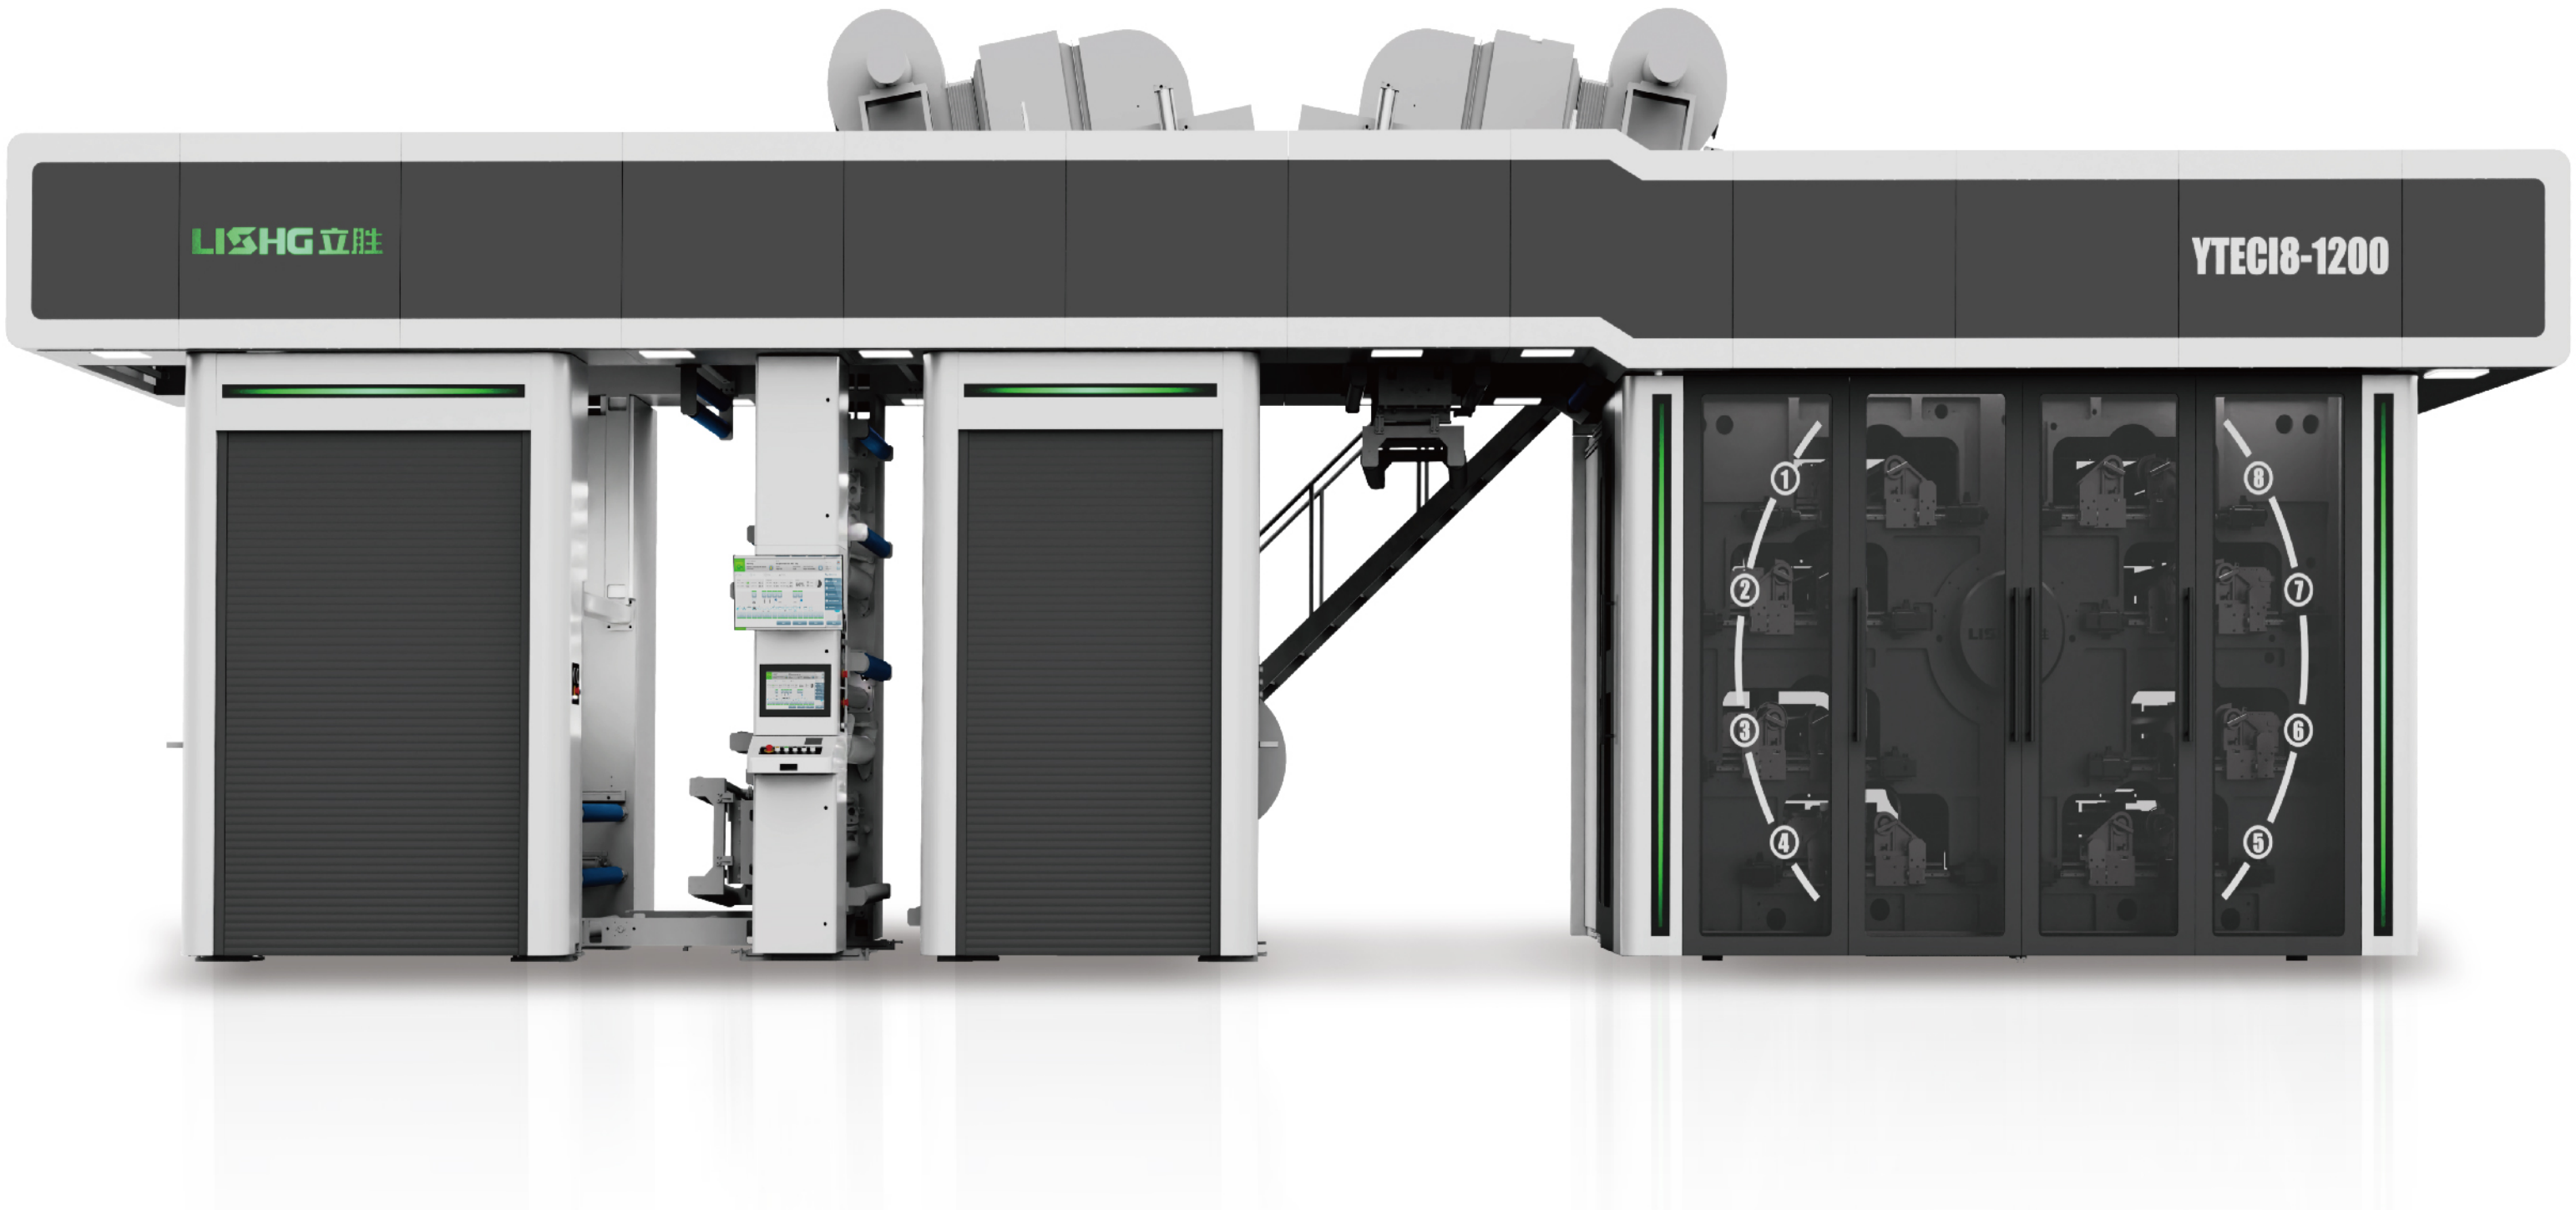

Unstopped Unwinding And Rewinding 不停机收放卷

- Unstopped unwinding and rewinding, achieving roll replacement at a printing speed of 300m/min, saving raw materials
- 不停机收放卷，在300m/min印刷速度实现换卷，节约原材料

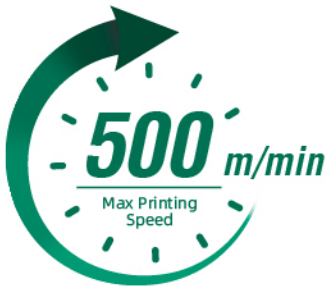

Sleeve-type Structure 套筒式结构

- Sleeve-type Plate Roller,sleeve-type Anilox Roller,easy To Replace, Enhancingwork Efficiency
- 套筒式版辊，套筒式网纹辊，更换便捷，效率更高。

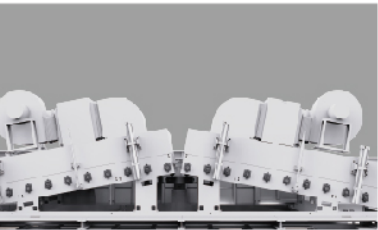

MASTER 大师系列
SERIES

Torque Direct Drive Motor 扭矩直驱电机

- The center drum uses a torque motor direct drive,achieving a color register accuracy of 0.1mm andsaving 30% of maintenance costs.
- 中央大滚筒采用扭矩电机直驱，实现±0.1mm套色精度，同时节约30%的维护成本。

Fluid Dynamics Simulation Oven 流体力学仿真烘箱

- Air Velocity 25-30m/min, 50% Hot Air Recovery,reducing Customer Energy Consumption By More Than20%.
- 风速25-30m/min,50%热风回收，降低客户能耗20%以上。

Intelligent Pre-color Matching 智能预套色

- The printing press quickly completes automatic colorregister of multiple color groups, reducing rawmaterial waste.
- 印刷机极速完成多色组自动套色，降低原材料浪费。

Why choose 'it'?

为什么选择“它”？

The sleeve-type structure allows for easy and more efficient changing of the printing cylinder and anilox roller.

套筒式结构，更换版辊和陶瓷辊方便，高效。

Water cooling system.

水冷循环系统。

The automatic pressure compensation system, equipped with an imported high-precision servo motor and closed-loop control algorithm, provides zero-delay pressure compensation.

自动压力补偿系统，搭载进口高精度伺服电机与闭环控制算法压力补偿零延迟。

Servo motor control ensures fast response and higher color matching accuracy.

伺服电机控制，响应快，套色精度更高。
